## Introduction

As a developer, I have extensive experience in PHP/Laravel and Vuejs which allows me to create the highest performing web applications. With my expertise in Laravel, I am able to develop sophisticated and well-organized applications, using features such as the Eloquent ORM to improve interactions with databases. I have a strong command of PHP and can efficiently create complex functionality while ensuring code quality. I constantly strive to expand my knowledge and keep up to date with the latest advances in PHP and Laravel, with the intention of making a significant contribution to the development of exceptional projects.

## Experience

### Full Stack Developer@AUCENI

"10/2023 | 02/2023" // Marrakech, MA

- Development of an application "Network Associate" robust web with Laravel, Vue.js and Docker. Proficient in the use of Eloquent ORM for efficient interactions with the database, Vue.js for responsive user interface design. Implementation of a base relational data with meticulous migrations to guarantee a consistent structure. Demonstration of dedicated commitment to collaborative projects by successfully integrating technical expertise to deliver high quality, innovative solutions.

### Full Stack Developer@Soorcin"03/2023 | 09/2023" // Marrakech, MA

- During my previous experience, I had the opportunity to develop the "StampBox" application using the Getaround API. This application was built with Laravel and used queue tasks. Additionally, Laravel Sail was used to configure a VPS server under supervision.

### Full Stack Developer@WebPick

"12/2022 | 04/2023" // Marrakech, MA

- I learned a lot about WordPress, which is a way to build websites, and about SEO, which helps websites appear in search results. I also discovered Docker, which is a tool, and improved my use of Git and Linux. I also found new tools called Taboola and Prebid Didomi.

### Developer@ MAISON DU CAFTAN

"07/2022 | 09/2022" // Marrakech, MA

#### Full Stack Developer

@ALLYOUNEED

"02/2022 | 07/2022" // Marrakech, MA "02/2022 |

#### Full Stack Developer

@PUBMINUTE

06/2023" // Marrakech, MA

- I have had the privilege of gaining experience in a wide range of languages, platforms, frameworks and content management systems, including PHP, Laravel, Node.js, React/Vue, JavaScript/ TypeScript, WordPress and Shopify . I am dedicated to the development and maintaining code using PHP, HTML, CSS, Sass, JavaScript and jQuery.
- I have gained extensive experience in designing and developing multiple websites for various services using CMS platforms such as Wordpress, Prestashop and Shopify. These websites have been thoroughly tested on different browsers and mobile devices to ensure compatibility and responsiveness. I believe my contributions during my tenure with the company contributed greatly to these experiences.

### Full Stack Developer@SOMAN

"09/2020 | 02-2022" // Marrakech, MA

- I worked with a team to create a large immersive web solution for three e-learning platforms. We developed two mobile applications using the Ionic framework and designed web application APIs for two of the platforms. This project shows my commitment to the company.
- The work involves developing, improving and troubleshooting applications and solutions using different technologies. It also includes testing and troubleshooting issues in various applications and solutions made with different technologies.

### Developer@DIGITALAB

"11-2019 | 09-2020" // Marrakech, MA

- Development and maintenance of code using PHP, HTML, CSS and JS, as well as creation of several WordPress sites.
- Built and developed two highly interactive web platforms with the Laravel framework: "MAWIIDI" for the SAAS model and "TIZLA" for logistics services.

## SKILLS

### Languages and Frameworks

PHP, Laravel, JavaScript, Vuejs, C#.

### Data base

Mysql, SQL Server, SQLite, PostgreSQL.

### Tools and platforms

Composer, Artisan CLI, Eloquent ORM, Sanctum, API Resources, RESTful API, Testing, SSH, SSL, Events, Queues and Jobs, Factory & Seeder, Git, Docker, PostMan, TablePlus, Linux.

### Extra

Design Patterns, Agile, SOLID

## Education

### SVT BACCALAUREATE

2014 - 2015 // Marrakech, MA

Life and earth sciences

### SPECIALIZED TECHNICIAN DIPLOMA

2015 - 2017 // Marrakech, MA

IT development

## Projects

### Associate Network, StampBox and TIZLA

All of these applications were developed using Laravel, leveraging a wide variety of packages and tools to create robust, feature-rich solutions.

### Spotify Profile, Watched

Create two web applications with React.js: one to manage movies to watch, the other using React, Express and the Spotify API to view Spotify personal data.

## Language skills

English: Advanced

French: Intermediate

Arabic: Kindergarten

## Soft skills

Communication, Passionate, Cooperative, Adaptability, Observer, Creative Mind, Organization Skills
